

Presented by the Emin Way

TAPPING INTO OUR INNER WISDOM FOR A GIANT LEAP AHEAD

In the quiet of a storm
disrupting us from our daily norm
Decisions, decisions, problems galore
Are we equipped to handle much more?
Yes, says the lesson, "How to Improve All"
Our complex has resources upon which to call
and simple methods for us to divine
ways and means for this new time.

You are invited to join us on Saturday
to explore unconventional ways to open up
communication with our sub-conscious as part
of a holistic approach to problem solving.
